

**SILENCE IN MEXICO CITY****FREIGHTER RAMS UTAH**

Madero Government Takes Time to Reply to U. S. Warning.

**INTERVENTION VERY REMOTE**

Oroco Will Be Judged in Washington by His Deeds, Not by His Promises.

Washington, April 15.—Although there was a notable revival of intervention talk throughout the national capital to-day as a result of this government's warning to Mexico demanding more respectful treatment of Americans and their interests, Acting Secretary Huntington Wilson of the State Department reiterated that nothing was "more remote" than American intervention in Mexico.

State Department officials expect to hear tomorrow how the communications setting forth the American attitude were received by the Mexican government and the revolutionary leaders.

The Mexican Embassy was non-committal on the subject. Other sources in close touch with the Mexican capital declared President Madero would receive the American demands in a spirit of suavity.

The next step must be taken by Mexicans, either through the rebel leader, Oroco, or by President Madero, from whom some kind of an answer to the State Department's representations surely will be forthcoming. Oroco will be judged by his deeds rather than by his promises.

Meanwhile conditions throughout Mexico have undoubtedly become much worse within the last week, and the State Department advises made public to-day show that the area of turbulence and violence has grown to formidable proportions. Conditions in the states of Michoacan, Puebla and Morelos, forming a semicircle closely adjoining the state of Mexico, are daily becoming worse.

In response to an appeal from the American Consul at Guadalajara, Mexico, President Taft has authorized the exportation of one hundred and fifty rifles and fifty thousand rounds of ammunition for arming the citizens of the United States in that

Mexico City, April 15.—President Taft's warning to the Mexican government that the United States "expects and must demand that American life and property within the republic of Mexico be justly and adequately protected," received at the American Embassy late last night, was transmitted to the Mexican Foreign Office this morning. The American Ambassador declined to make any comment on the subject.

The warning is generally regarded by foreigners here as wise and timely, though it is recognized that the administration is already disposed to respond. Oroco lives to the letter of his paper. It is believed that the warning will have the effect of causing sharp instructions to be issued to General Huerta, whose irregulars control the danger point, the federal control.

The Foreign Minister was unwilling to say anything pending full consideration of the text of the message.

Laredo, Tex., April 15.—A lock-out of American engineers and conductors on the National Lines of Mexico will begin to-morrow, it was announced to-day. Mexican locomotive engineers will reach here-to-day ready to take the Americans' runs into Mexico to-morrow.

**NATHAN STRAUS IN ROME**

International Anti-Tuberculosis Congress Addressed by New Yorker.

Rome, April 15.—Urgent plea for the abolition of prevention of consumption were made to-day before the seventh international congress against tuberculosis by Nathan Straus, who by appointment of President Taft is senior delegate from the government of the United States to this congress in which experts from forty nations are planning to extend the warfare against the great white plague. Mr. Straus said:

"The message with which I am charged by the government of the United States is: 'Prevent tuberculosis. Stop it at its source.'

The Utah is commanded by Captain W. S. Benson. The board of inquiry, of which Commander Jay Sypher, of the Florida, was head, will report to Admiral Ward, commander of the first division of the Atlantic fleet, of which the Florida is the flagship. The Utah was put in commission on August 21, 1911. Yesterday's was her first accident.

**CHINA'S FINANCIERS JEALOUS**

Protesting Against Belgian Intruders

Six-Power Group Stops Supplies.

Paris, April 15.—It is understood here that the representatives in Peking of the "six power group," comprising the United States, Great Britain, Germany, France, Russia and Japan, have stopped payment of advances on the Chinese loan as a means of protesting against the signature of the 35,000,000 taels (approximately \$17,500,000) made by the Belgian syndicate.

France and the other powers are opposed to any participation by Belgium and it is likely that the French market will be closed to any loan arranged outside of the six-power combination.

**DIX SIGNS IMMUNITY WAIVER**

Its Effectiveness Doubtful.

Albany, April 15.—Governor Dix signed the Brantford Bill to-day providing that any person may waive immunity from prosecution on a matter regarding which he testifies. The bill was passed by the Legislature as a result of the controversy regarding the propriety of permitting Mortimer L. Schiff and Howard S. Gans, his counsel, to testify as voluntary witnesses before the grand jury in the Folke E. Brantford case, although they agreed to waive immunity from prosecution.

Attorney General Carmody expressed doubt to-day as to the effectiveness of the new law, in view of the constitutional provision that no person should be permitted to give testimony against himself coupled with the right of a district attorney to cross-examine a witness appearing before a grand jury.

**TAMMANY ELECTS OFFICERS**

The 125th annual election of officers of the Society of Tammany, or Columbian Order, was held at Tammany Hall last night. There was no contest, the following being chosen: Sachems, John F. Ahearn, William Dalton, Thomas E. Rush, John Fox, Asa Red Gardner, Julius Harburger, Louis F. Haffen, George W. Loft, Charles F. Murphy, Thomas F. McAvoy, George W. Plumb; John J. Scanell and Timothy D. Sullivan; secretary, Thomas F. Smith; treasurer, William Solmer; sagamore, Bryan P. Henry; wiskinck, John A. Boyle.
